

CASA LUZ'S TIMES 2021 - 2022

EASTER PICNIC with the Families

As every year, our Easter celebration takes place on the last day before the Easter holidays. This year we were able to have a picnic with all the families in the playground near Casa Luz.

The teachers, days before the event, were in charge of coordinating everything together with the great collaboration of the parents, who brought drinks and delicious food for all the children. Each family brought blankets to place all the food and to be able to sit comfortably.

The teachers organized activities for the children and adults such as: egg hunt, spoon game, singing typical Easter songs, etc. For the Easter basket hunt, some teachers were in charge of hiding the baskets that the children had previously painted and decorated among the trees.

The day started with everyone singing songs that the children had been learning at school during those days. Then the children went to look for the presents that the Easter bunny had left for them in the park. At around 11 a.m. we started with the picnic where everybody could taste the delicious dishes the families had brought with them. Both Krippe and Kindergarten children were playing until the younger ones returned to CASA LUZ for a nap.

The weather was very nice and everyone enjoyed a wonderful picnic day together with their children. We are very grateful for your participation in this special party!
